

# UBERLISS KERATIN

## Care Instructions

1

### The Curing Stage

The First 3 days the layer of keratin is still curing. During this time Avoid the following : Sweating, steam rooms, saunas, hot showers/baths, working out ect.

2

### Moisturize

You can moisturize the hair using the approved products : Uberliss Elixir, Uberliss serum , Biphaisc Fusion, Rapid repair spray

3

### Wrap the Hair

For the first 3 days avoid any rubber bands, ponytails / clips .Wrapping & bonnets are highly recommended . If you must secure please do so loosley and using a claw clip

4

### Products

You have invested in your treatment , time to perserve the keratin by :

- Purchasing in Salon Products
- Keratin Safe shampoo & Conditioners
- Thermal Protectants

**Uberliss Treatment lasts 3-4 months**
